associated polymorphisms, changes in gene expression that frequently precede a disease state, as well as genetic profiling of tumor subtypes (see, for example, Hacia, J.G., Nature Genetics 21(Suppl):42-47 (1999); Heiskanen, M.A. et al., Cancer Research 60:799-802 (2000); Pollack, J. et al., Nature Genetics 23:41-46 (1999); DeRisij, et al., Nature Genetics 14:457-460 (1996);Berns, A., Nature 403:491-492 (2000); and Alizadeh, A.A. et al., Nature 403:503-511 (2000); Marx, J., Science 289:1670-1672 (2000)).

Please replace the paragraph beginning at page 18, line 20, with the following rewritten paragraph:

The technique of laser-capture microdissection (LCM) is preferred for cell collection (see, for example, Emmert-Buck, M.R. et al., Science 274:998-1001 (1996); Simone, N.L. et al., Trends in Genetics 14:272-276 (1998); Glasow, A. et al., Endocrine Research 24:857-862 (1998); WO 0028092 (priority date November 5, 1998); Luo, L. et al., Nature Medicine 5:117-122 (1999); and Arcturus Engineering, Inc., www.arctur.com, last visited March 20, 2001). LCM was developed to provide a method for obtaining pure populations of cells from specific microscopic regions of tissue sections under direct visualization (Simone, N.L. et al., supra). For the purposes of the invention and the present examples, the cells of interest were transferred to a polymer film activated by laser pulses, a technique that maintained the integrity of the RNA, DNA, and proteins of the collected cells. The transferred cells were used for the isolation of total cellular RNA for subsequent use in the preparation of control nucleic acid probes and test nucleic acid probes. The LCM device used for the examples disclosed here was from Arcturus Engineering, Inc., (Mountain View, CA, USA).

## REMARKS

## Formal Matters

Claims 1-40 are pending in the application.

## Petition to Correct Inventorhip under 37 CFR § 1.48(b)

Applicants submit herewith a petition and fees to correct inventorship under 37 CFR § 1.48(b) to delete the name of David G. Lowe because he is not an inventor of the subject matter of the currently pending claims.
